

Key Ingredients:

- TriHex Technology® – A blend of active peptides and key ingredients that works with the skin to help clear out damaged elastin and collagen and support the skin's natural ability to produce new, healthy elastin and collagen.
- Naringenin with Panthenyl Triacetate - An antioxidant that soothes the skin and reduces the appearance of redness.
- Arnica Montana Extract - Provides a calming effect to the skin.
- Phytoene & Phytofluene - Potent antioxidants extracted from saltwater micro-algae that help address pigmentary concerns and protect the skin from further damage.
