

The **Environ Vita-Peptide C-Quence Serum 4 Plus** is the fifth and final level in Environ's Youth EssentiA® Vitamin A Step-Up System. This advanced serum combines high concentrations of vitamins A, C, and E with a synergistic blend of peptides and antioxidants to support skin health and combat visible signs of aging.

## Key Active Ingredients & Their Benefits

- **Vitamin A (Retinyl Propionate, Retinyl Palmitate):** Supports skin cell renewal and helps reduce the appearance of fine lines.
- **Vitamin C (Ascorbyl Tetraisopalmitate):** A stable form of vitamin C that brightens skin tone and provides antioxidant protection.
- **Vitamin E (Tocopherol Acetate & Tocopherol):** Enhances skin hydration and offers antioxidant benefits.
- **Peptides (Palmitoyl Hexapeptide-12, Palmitoyl Tripeptide-38, Palmitoyl Tetrapeptide-1, Palmitoyl Tetrapeptide-7):** Support collagen production and improve skin elasticity.
- **Antioxidants (Lycopene, Epigallocatechin Gallate, Rosemary Leaf Extract):** Protect against environmental stressors and free radical damage.
- **Hydrators (Glycerin, Sodium Lactate, Sodium PCA, Hydrolyzed Jojoba Esters):** Maintain skin moisture balance and soothe irritation.

## Full Ingredients List

Aqua (Water), PEG-40 Hydrogenated Castor Oil, Butylene Glycol, Ascorbyl Tetraisopalmitate, Ethylhexyl Methoxycinnamate, Glycerin, Caprylic/Capric Triglyceride, C12-15 Alkyl Benzoate, Tocopherol Acetate, Sodium Lactate, Sodium PCA, Xanthan Gum, Tribehenin, Hydrolyzed Jojoba Esters, Retinyl Propionate, Retinyl Palmitate, PEG-10 Phytosterol, Palmitoyl Hexapeptide-12, Geranylgeranylisopropanol, Hydroxypropyl Cyclodextrin, Palmitoyl Tripeptide-38, Ceramide NG, Carbomer, Polysorbate 20, Palmitoyl Tetrapeptide-1, Palmitoyl Tetrapeptide-7, Helianthus Annuus (Sunflower) Seed Oil, Tocopherol, Hordeum Vulgare (Barley) Seed Extract, Propanediol, Disodium EDTA, Hydroxypropyl Guar Hydroxypropyltrimonium Chloride, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Rosmarinus Officinalis (Rosemary) Leaf Extract, Epigallocatechin Gallate, BHT, Sodium Hydroxide, Lactic Acid
