

KEY INGREDIENTS

b.r.y.t.e.r.

- Aminopropyl Ascorbyl Phosphate (Vitamin C): A form of Vitamin C that helps with the appearance of dark spots for a brighter, more luminous complexion.
- AHA Blend: Blend of lactic, glycolic and citric acids that provides gentle and effective AHA resurfacing.
- Alpha-Arbutin: Helps diminish the appearance of unwanted pigment, especially stubborn, dark patches.
- Niacinamide: Hydrates, brightens and reduces the appearance of discoloration.
- Tranexamic Acid: Visibly fades discoloration and reduces the appearance of stubborn brown patches for a more even skin tone.
- Soothing Blend: Combination of Aloe, Buddleja Officinalis Flower Extract, Ergothioneine, Grape Flower Cell Extract, and Phloretin.
- Phenylethyl Resorcinol: Nature-inspired antioxidant that helps protect against discoloration and uneven skin tone caused by UV and visible light exposure.
- Ziziphus Spina-Christi Leaf Extract: Supports youthful radiance by minimizing the visible effects of glycation, including yellowing and dullness.

TAP

- Allyl PQQ (Pyrroloquinoline Quinone Allyl Ester): Patented, potent antioxidant technology effectively neutralizes intrinsic free radicals to minimize the effects of oxidative stress, such as age spots and uneven skin tone.

Antioxidant

- Superoxide Dismutase: Soothes and improves the overall appearance of skin.

Skin Health Support

- Arginine: Amino acid with skin conditioning and moisturizing properties.
- Hydrolyzed Sodium Hyaluronate: Known to provide antioxidant support and moisture.
