KEY INGREDIENTS

- Injectable-Grade Hyaluronic Acid (HA): Targeted delivery using InterFuse Technology to topically fill the appearance of deep expression lines.
- 4 Additional Varying Sizes of HA: Bind water to the skin to help with moisture retention and topically improve the appearance of lines and wrinkles.
- 2 Neuro-Calming Peptides: Help to soften the appearance of expression lines.
- Collagen Nourishing Complex of Amino Acids, Messenger Peptides and Vitamin C: Work synergistically to support collagen.
