

Urea Complex: provides intense moisturization.

Sodium PCA and Sodium Lactate: enhance moisture and hydration of the skin.

Salicornia Herbacea Extract: supports increased skin hydration.

Cholesterol and Ceramides: support hydration and the skin's barrier.

Linoleic and Linolenic Acids: essential fatty acids that support the skin's barrier (Omega-6 and Omega-3).

Carnitine: a naturally occurring amino acid that helps hydrate the skin.

Squalane: supports moisture retention to improve the look of skin suppleness.

Aminopropyl Ascorbyl Phosphate: a form of Vitamin C that supports hyaluronic acid and increases skin smoothness.

Sodium Hyaluronate: helps provide high moisture retention.

Additional Moisturization Support: Glycerin, Caffeine and Jojoba Esters.
