

1. **Water (Aqua)** – The primary solvent and base of the formula, providing hydration to the hair and scalp.
2. **Cyclopentasiloxane** – A lightweight silicone that helps smooth and detangle hair while adding shine and reducing frizz.
3. **Dimethicone** – A silicone-based ingredient that provides conditioning, smoothness, and prevents hair from becoming brittle.
4. **Glycerin** – A humectant that draws moisture from the air into the hair, helping to keep it hydrated.
5. **Cocamidopropyl Betaine** – A mild, coconut-derived surfactant that helps cleanse the scalp and hair without stripping natural moisture.
6. **Sodium Chloride** – A thickening agent used to adjust the viscosity of the conditioner.
7. **Panthenol (Pro-Vitamin B5)** – A moisturizing ingredient that helps strengthen and smooth the hair, reducing frizz and improving texture.
8. **Hydrolyzed Silk** – A protein that penetrates the hair shaft, strengthening the hair and giving it a silky, smooth appearance.
9. **Salicylic Acid** – Known for its exfoliating properties, it helps remove dead skin cells from the scalp to promote a healthier scalp environment.
10. **Menthol** – Provides a cooling sensation that helps to soothe and refresh the scalp.
11. **Tocopheryl Acetate (Vitamin E)** – A potent antioxidant that protects the scalp and hair from environmental damage.
12. **Niacinamide (Vitamin B3)** – Improves scalp circulation, supporting a healthier scalp environment for hair growth.
13. **Polyquaternium-7** – A conditioning agent that helps detangle the hair, reduce static, and smooth the hair surface.
14. **Citric Acid** – Used to adjust the pH level of the conditioner to maintain scalp and hair balance.
15. **Methylisothiazolinone & Methylchlorisothiazolinone** – Preservatives used to prevent microbial contamination and extend product shelf life.
16. **Fragrance (Parfum)** – Adds a pleasant scent to the conditioner.
