To Make The Coating With Rough Effect,
Forming An Unique Durable Non-stick Performance.
Gradient Avocado Color Makes
The Coating Natural And Healthy,
Which Leads To A New Fashion In The Kitchen.
Enjoy The Fun Of Cooking.

ARTMARTIN

The ARTMARTIN series is manufactured from high-quality die-casting Aluminium. The secret is its flame style base, providing energy-saving cooking experience. And the best thing?

This series is robust, scratch-resistant and easy to clean.

The particularly thick body of the pan retains heat quickly and for a long time, as well as equally distributing the heat right up to the edges, all of which help to save energy.

The handle is ergonomically shaped and is visually pleasing with a stainless-steel trim.

You can look forward to crispy frying results!
