Threading:

Threading allows control when shaping brows to ensure perfectly sculpted eyebrows. A cotton thread is used to glide across the skin, removing excess hair while it does so. Not only that, but the thread grabs and takes out every single hair by its root leaving a cleaner finish with longer lasting results. The results are wonderfully neat and perfectly symmetrical eyebrows, which can take years off your face.

Browse through our 5 high fashion styles and have an amazing blow dry in 30 minutes. You are washed and dried in half an hour, but if you're lucky enough to have super thick hair or curly hair please allow extra time and add an extra £10.00.

Eyelash extensions

Specializing exclusively in semi-permanent eyelash extensions by our highly trained technicians. You can trust us to give you the perfect look to suit your eyes, face shape and of course your personal preference.

It's not just a treatment – it's a transformation! After a short consultation, your lash artist will design the perfect look to frame your eyes. Whether you're looking for a natural or dramatic finish, you'll open your eyes to the longer, thicker, curlier lashes you've been lusting after.

Takes 60-90 minutes, your extensions will last 4-6 weeks (longer with infills)

Lash removal is free before a new full set.

- **Technician Full set** £75

It's the circle of life – or at least the circle of lashes – that your natural eyelashes grow and shed in cycles of 60-90 days. In order to make your extensions last throughout this process, we recommend infills every 2-3 weeks to replace.

- **Technician Infill** £30

If you're keen to go back to au natural, we're here to help. Our special adhesive remover will quickly and easily dissolve the bond between your natural lashes and extensions, so there's no need to worry about damage or excessive shedding.

- **Professional Removal:**
