The Remedy Room

Inhaled dry salt particles are super absorbent and act as a sponge, while attracting foreign substances along its path through the respiratory tract. This helps to reduce inflammation in the entire respiratory tract and widen the airway passages. This treatment also accelerates the transportation of mucus, the elimination of residual tar and foreign allergens. A clean respiratory system naturally results in **higher oxygen intake, increased energy** and an **improved immune system**.

improved respiratory conditions include:

Asthma	Cystic fibrosis	Ear infections
Allergies	Common cold	Smokers Cough
Bronchitis	Sinusitis	and MORE
